

## Meritor Parts

Meritor Part - The Meritor Business is a leading international dealer founded upon one hundred years of custom of service and quality. Meritor concentrates on integrated systems with various modules and components to the original equipment makers and aftermarket equipment within the industrial and transportation sectors.

Meritor prides itself in the company's distinctive energy and thinks that this particular energy contributes to their competitive advantage in the global operations. The business values their clients and wants to guarantee their success while anticipating their various requirements. Meritor starts with a tradition that values diversity of people and their broad thought processes. Operating in 19 countries and hiring over eleven thousand two hundred people, Meritor promotes collaboration and innovation amongst a team of knowledgeable professionals.

By only employing future focused staff, Meritor strongly thinks these top-caliber individuals would be able to rapidly get used to to changing environments and demonstrate the commitment and performance required to reach results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to improve the overall success of the business. In return, Meritor offers their staff various opportunities for personal and professional development.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, suspension and braking systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is even responsible for supporting the requirements of all their global engineering staff.

The Quality team at Meritor is a customer-focused and dynamic group which is committed to ensuring optimum growth at their production plants and aftermarket distribution facilities that are situated on 5 continents and in 19 countries.

The supplier development network is particularly located to support new business development. Regional teams are supported by international centralized specialties, initiatives and quality systems in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program promotes a data-driven, fact-based method to decision making within each and every aspect of the company. The DFSS or also referred to as Design for Six Sigma ensures product reliability within each and every region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business processes and apply lean techniques.
